please note that one roll of Super 8 film is roughly 3 - 3.5 min of footage, and if your wedding is an out of state, or a destination wedding, additional travel and housing costs will vary depending on location

SNACKS

ADD-ON OPTIONS

Standard Film Photography – prices vary

- \$40 per 35mm roll of film (36 exposures per roll)
- \$50 per 120mm roll of film (10 exposures per roll)

3D Film Photography – \$60 per roll of 35mm film

- the camera I use, the “Nishika n8000”, takes four photos per shot. This equates to 18 different shots per roll once developed. The photos are then stitched together in Photoshop to create a looping gif effect. If curious, please ask and I can send some examples!
- recommended for during the reception, with bridal party, and fun, candid, party moments!

Super 8 Film – \$125 per roll of film

- delivery of raw unedited Super 8 film via dropbox link
 - typical turnaround time for film lab is 2 weeks after the film has been shipped
- for reference, one roll of Super 8 film is roughly 3 - 3.5 minutes of footage
- please note that the maximum amount of rolls of Super 8 film I can shoot while taking photos is no more than two rolls of film
 - this is to ensure I prioritize photography for critical moments (no one can confidently capture photos and record video at the same time)

Photo Rush – \$800

All edited images delivered to you within 2 weeks after the wedding day. If film photography is added, this delivery date is 2 weeks after the scans have been received from the film lab.

Additional Hours of Coverage – \$400 per additional hour

If photo services are needed longer than 10 hours of coverage, I can do that!
